

Monthly Lawn Care Calendar

Month	Main Tasks
January	Prevent damage, avoid foot traffic, and plan for spring lawn care.
February	Plan lawn care, check tools, and avoid walking on frozen ground.
March	Lawn cleanup and prepare for spring mowing and fertilizing.
April	Aerate, apply pre-emergent weed control, and do your first mow.
May	Fertilize, mow regularly, and apply weed control as needed.
June	Deep watering, raise mower height, and mow regularly.
July	Continue deep watering, monitor for pests, and fertilize lightly.
August	Mow when dry, spot treat weeds, and continue proper watering.
September	Aerate, overseed, and apply fall fertilizer.
October	Continue mowing, rake leaves, and clean up debris.
November	Stop mowing, clear debris, and reduce watering as temperatures drop.
December	Avoid foot traffic on frozen lawn, prepare for next season, and prevent salt damage.
